

TREASURE HUNT

Item	Point Value
Rills	<input type="checkbox"/> 15 points
Large Animal Sign Type if known:	<input type="checkbox"/> 5 points
Worm (or worm sign)	<input type="checkbox"/> 10 points
Water flow evidence Explain:	<input type="checkbox"/> 10 points
Soil Capping	<input type="checkbox"/> 15 points
Small animal sign Type if known:	<input type="checkbox"/> 5 points
Perennial Plant Grass or Forb:	<input type="checkbox"/> 5 points
Insect Type if known:	<input type="checkbox"/> 5 points
Litter covering soil	<input type="checkbox"/> 5 points
Weed Type if known:	<input type="checkbox"/> 5 points
Bird (or sign)	<input type="checkbox"/> 5 points
Rodent Sign	<input type="checkbox"/> 5 points
Human Sign Explain:	<input type="checkbox"/> 5 points
Gully	<input type="checkbox"/> 10 points

Sheet erosion 10 points

Pedestalling 15 points

Bare soil 1 point

Soil Carbon (organic matter) loss 10 points

Explain:

Evidence of Living Organisms 5 points

Explain:

Annual Plant 1 point

Type if known:

Poor water cycling 15 points

Explain:

Evidence of technology 5 points

Explain:

Evidence of poor mineral cycling 15 points

Explain:

Evidence of soil compaction 10 points

Explain:

Bonus Points: In what part of the HM “process” 8 points

does monitoring fall (Whole Under Management, Holisticgoal, Testing, Feedback Loop)?

TOTAL POINTS _____ (200 possible)

Questions for discussion:

1. Tell the story of this land based on what you've seen. What tools were used, by who, and for how long?
2. You have just inherited this land. How will you begin managing towards your “vision of health and biodiversity” as it states in your holisticgoal. Hint: Consider the different tools you could use for this environment.
